To view 3D to must have suitable version of Acrobat Reader.
Get the latest free version at <https://get.adobe.com/reader/>

3D preview settings are disable in Acrobat Reader by default.
To enable 3D content permanently:
Go to *Edit > Preferences > 3D & Multimedia* and then select the *Enable playing 3D content* checkbox.

Slight difference between 3D model and produced cup is possible because of offsets in production.

Your artwork was checked and prepared for printing by our automatic preprocess workflow.

We won't check and we are not responsible for:

- **Object mismatch at the gluing flap point.** Please make sure You prepare your artwork after You read our requirements and instructions.

- **Colour mismatch.** ISO 12647-2 standard is used in a printing process, which guarantees CMYK values printed just as they should be.

All Pantone colors are converted to official CMYK values. However, not all Pantone color can be printed by CMYK. No claims concerning unexpected colors results are accepted .
